

Excerpt from: "Chicken Soup for the Traveler's Soul"

"Be it a romantic weekend getaway, a hurried business trip, or an extended overseas adventure, travel provides us with immeasurable opportunities to enhance, enrich, and expand our lives. Our senses are bombarded by the new and unfamiliar. We encounter a myriad of novel customs, fresh faces. And magical moments that transform the way we think and how we feel. We face

an array of challenges that test our deepest held beliefs and in the process; we learn more about who we are and who we can be. We learn not to fear the unknown but to savor its many surprises. We learn to live less in our heads and more in our hearts. We form friendships, fall in love, cherish the hospitality of people we've only just met and find ways to make a real difference in our world. We learn to trust the un-traveled path, to revel in our wanderlust and to

nurture our intrepid soul. We begin to view our electronic tickets as opportunities for greater understanding and personal growth, precious passports to richer and deeper connection with our fellow human beings--a path to peace."

Travel is one of the most precious things we get to do in this life. So please use it, enjoy it, and push yourself to the limit!

WHAT DO YOU THINK?

We want to know how you feel about an idea that we had to see if there's any interest in a gift basket service. Baskets will include grocery items, souvenir items, or special occasion items such as birthdays, anniversary, etc. We can have the baskets in the unit upon arrival. This service is not setup yet, it's just to see how families respond.

Please give us some immediate feedback by email, fax or by mail, it would be greatly appreciated!
